

# Print on demand with **FLEXIPRINT**

# What is FLEXIPRINT?

Flexiprint is a web-based Print on Demand system allowing you to select and compile your own Print Pack from the Course Materials Database (CMD) and QUT Blackboard websites. It is a convenient and cheaper alternative to home or lab printing.

## Access Flexiprint on QUT Blackboard

- Login to QUT Blackboard **<http://blackboard.qut.edu.au>**
- Enter your unit site under **My Units**
- Go to **Tools** and select **Student Tools**
- Click **Flexiprint** and a pop up window will appear
- Select the files you want to print
- Click **Next** to transfer to the Flexiprint webpage
- Select your preferred print, payment and delivery option
- Select **Next** to proceed or **Back** to change your document selection
- Check the details of your print job and confirm the order
- Click **Create** to finalise the print job or **Back** to select a different print option.

For general information about Flexiprint refer to **[www.flexiprint.qut.edu.au](http://www.flexiprint.qut.edu.au)**
